Mr. Sarcione;

As someone who has lived on Stoney Hill Road since the development initially started, I do not believe it is appropriate for this developer to impede upon our road. For anyone to believe that there will be minimal additional traffic onto Route 20 from a development that is actually large then our own is unreasonable. The very best scenario is for these apartments to have their own dedicated entrance and exit off of Route 20. This will actually be much better for the residents of the apartment complex, and will very likely lessen the need for residents to need to go East on Route 20, only for the purpose of pulling into a driveway and making a U-Turn.

Suffice to say, even now, I sometimes do this, as a way to escape the lengthy wait to turn West onto Route 20 from Stoney Hill.
