SOILS & GEOLOGIC FEATURES

Town of Shrewsbury, MA. - Open Space and Recreation Plan 2012

* The DEP Oil or Hazardous Materials Sites with Activity and Use Limitation (AUL) datalayer is a statewide point dataset containing the approximate location of oil or hazardous material release/disposal sites where an AUL has been filed. The sites mapped in this datalayer represent only a subset of the total reported release sites tracked by MassDEP BWSC.

An AUL provides notice of the presence of oil and/or hazardous material contamination remaining at the location after a cleanup has been conducted pursuant to Chapter 21E and the MCP.
 --Description From MassGIS website <http://www.mass.gov/mgis/aul.htm>.

** The MassDEP Tier Classified Oil and/or Hazardous Material Sites datalayer is a statewide point dataset containing the approximate location of oil and/or hazardous material disposal sites that have been (1) reported and (2) Tier Classified under M.G.L. Chapter 21E and the Massachusetts Contingency Plan (MCP).

Location data contained in this datalayer are based on MassDEP staff interpretation of information provided by PRPs and their LSPs. Point features in this datalayer should ONLY be considered as an "approximation" or "best estimate" of site locations based on the information submitted to the MassDEP BWSC. The accuracy and completeness of the information submitted has not been verified by MassDEP. ---Description From MassGIS website

See the MassGIS data layer description page for full data disclaimer.

ACTION PLAN

Town of Shrewsbury, MA. - Open Space and Recreation Plan 2012

Protect the Town's Potable Drinking Water Sources

- A. Permanently protect more land area in the Lake Quinsigamond watershed to protect the surface and ground water supplies.
- B. Educate businesses and developers within wellhead protection areas about low impact development practices and opportunities for watershed land protection.
- C. Align public policy and regulations with low impact development, green, healthy community and similar approaches.

Plan and develop greenways in town with consideration to appropriate regional connections

- A. Increase mapped paths, trails, bike and pedestrian routes by 100%.
- B. Launch efforts with neighboring towns to develop greenway connections.
- C. Perform a Walkable Communities Survey.

Maintain and Enhance the Town's Recreational Facilities

- A. Increase participation in active recreation activities.
- B. Increase the non-municipal funding for open space protection and recreation by 20% by 2019.
- C. Improve the level of satisfaction with recreation facilities to generally "satisfied" or "very satisfied" among all age groups.
- D. Improve the awareness of the open space and recreation facilities among all residents.
- E. Increase the public access to water bodies.

Protect and preserve open space parcels

- A. Minimize net loss of protected biohabitat.
- B. Minimize net loss of forested acres.
- C. Town and OSRP implementation committee to meet with nonprofit conservation organizations on a regular basis to discuss cooperative efforts related to open space preservation activities.

Protect Surface Water Resources

Protect Surface Water Resources

Protect Surface Water Resources

- A. Create general awareness relative to nonpoint source pollution issues among residents, businesses, and institutions.
- B. Encourage private and public entities to reduce direct recharge of stormwater with engineered/creative solutions or best management practices (BMPs).

Protect and enhance habitat

- A. Educate the public about prudent and best practices with respect to the Asian Longhorned Beetle (ALB). Increase distribution of educational material regarding ALB to schools, developers, and others.
- B. Increase distribution of educational material regarding special habitats to schools, developers, and others.
- C. Increase the number of volunteer or other community building events such as community, field or stream cleanups.
