We are seeing community spread. We are not seeing spread in our schools or congregate type settings. We are urging residents to consider their own responsibility to help reduce the spread of the novel coronavirus. The most effective ways to reduce your risk in contracting the virus and preventing the spread remain the same: wearing masks or face coverings, personal hygiene, social distancing, avoiding large or medium gatherings and staying home when possible. The Town is doing everything it can from a public health and public safety standpoint to reduce the spread and ensure the continued operations of all essential services. The Commonwealth has launched "Stop the Spread", a strategic testing program in communities across Massachusetts that have continued to see a higher number of residents testing positive for COVID-19 and is providing [free testing](#).

The Town of Shrewsbury is committed to keeping the public informed during this period of the Coronavirus (COVID-19) pandemic. The Town will report positive cases each weekday by 4:30PM*. Weekend cases will be included in the Monday release. The Town Manager's Office will update the public with any new developments or changes in Town operations including confirmed cases of COVID-19 in Shrewsbury, in the following order:
