

## Homebound Vaccine Contact Information by Municipality

Individuals who cannot leave their home to get a COVID-19 vaccine are able to receive an in-home vaccination through one of two options, depending on where they live:

1. 161 Local Boards of Health have chosen to manage their own in-home vaccination program or work with a regional collaborative to do so;
2. 190 Local Boards of Health will work with the Commonwealth to support residents through the State Program.

To find out whether your municipality will be managing their own homebound vaccination program, please refer to the table below. If you are not sure whether your town is offering in-home vaccination through its Local Board of Health, please call the Homebound Vaccination Central Intake line at 1-844-771-1628 to be connected with someone who can help you find the right option for you.
